

# CHRISTIAN TORRES

Drupal Developer | Full-Stack Expertise | Web Accessibility

+1-(234)-555-1234 Email linkedin.com Los Angeles, California

## SUMMARY

With over 10 years of professional experience as a Drupal Developer, I possess advanced full-stack development capabilities, emphasized in client-focused solutions, robust architectures, and web accessibility. Most notably, my contributions resulted in a 25% performance uplift in major projects, and I successfully led migrations and integration initiatives that substantially improved client operations.

## EXPERIENCE

### Senior Drupal Developer

TechSolutions Inc.

01/2020 - 03/2023 Los Angeles, CA

- Designed and implemented a new Drupal 9 architecture, resulting in a 25% increase in site performance and user engagement.
- Led a team of 4 developers in the migration of a government agency website from Drupal 7 to Drupal 8, which improved the site's security compliance by 30%.
- Developed and deployed 10+ custom modules, enhancing site functionality and user experience while meeting all required deadlines.
- Collaborated with cross-functional teams to integrate Salesforce CRM, increasing the efficiency of customer data management by 40%.

### Drupal Developer

Innovative Web Solutions

03/2016 - 12/2019 San Francisco, CA

- Debugged and maintained over 15 high-traffic Drupal 8 websites, reducing downtime by 98%.
- Directed the implementation of responsive themes utilizing Twig, enhancing accessibility for mobile users by over 60%.
- Improved the search tool integration with Apache SOLR, leading to a 50% quicker search response time.
- Optimized MySQL database architecture, which resulted in a 35% improvement in data retrieval processes.
- Spearheaded a continuous integration workflow using Git, Jira, increasing team productivity by 25%.

### Web Developer

Creative Digital Group

01/2013 - 02/2016 Los Angeles, CA

- Upgraded multiple client websites to Drupal 8, providing a seamless transition for end-users and no downtime.
- Established a site monitoring strategy using Docker and DDEV for 5 websites, heavily reducing potential security risks by 90%.
- Implemented custom analytics solutions for 10+ websites, allowing clients to measure user interaction and increase targeted marketing efforts by 20%.
- Produced modular front-end code using SASS which improved website maintenance and scalability for future updates.

## EDUCATION

### Master of Science in Computer Science

University of California, Los Angeles

01/2011 - 01/2013 Los Angeles, CA

### Bachelor of Science in Web Development

California State University, Long Beach

01/2007 - 01/2011 Long Beach, CA

## PROJECTS

### Social Sharing Drupal Module

Developed an intuitive Drupal module for easy social media sharing across platforms, suitable for high-traffic sites, increasing user-engagement by 15% - github.com/christiantorres/socialshare

### Caching Strategies for Drupal 8

Optimized caching mechanism for Drupal 8, improving load times by up to 40% for content-rich websites with heavy daily traffic - github.com/christiantorres/cacheopt

## KEY ACHIEVEMENTS

### Recipient of the Innovative Developer Award

Recognized for developing groundbreaking custom modules that enhanced site capabilities and received positive customer feedback.

### Keynote Speaker at DrupalCon

Presented a session on 'Advanced Theming Techniques with Twig' that was attended by over 300 industry professionals and received high acclaim.

### Contributor to Drupal Core Updates

Participated in contributing vital patches to the Drupal core that improved overall security measures by 20% in version updates.

### Led Successful Site Migration Project

Led a seamless migration of a federal agency's website to a newer version of Drupal, without interruptions, as praised by the client.
